3.9 Competition Rules and Regulations

3.9.1 IWF Rules & Regulations

The competition will be held in accordance with the IWF Rules & Regulations.

In the Pacific Games competition there are medals for snatch, clean & jerk and total and therefore if a lifter fails in three snatches, then that lifter may continue with the clean & jerks.

All competitors must present a current passport at the weigh-in as per IWF rules.

Any competitor who fails to weigh-in within the limits of his or her nominated category cannot participate in the competition.

Also, for clarification, according to IWF Rules, 6.6.5 will apply. The total weight of the starting attempts declared and actually taken in the snatch and clean & jerk cannot be less than 20kg below the verified entry total. The jury will exclude the athlete from the competition if this rule is not adhered to. This rule is commonly referred to as 20 kilo rule.

3.9.2 Weigh-in

Weigh-in lasts one hour and starts two hours before the relevant session start time. Athletes in each specific weight category are weighed by lot number. The athletes will be called one at a time into the weigh-in room, according to the progression of the athlete's lot number. Athletes not present when their name is called will be weighed at the end of the weigh-in sequence. Athletes must make the bodyweight category they are entered in or they do not compete. There will be no exceptions. Only one authorized team official may accompany the athlete during weigh-in.

3.9.3 Proof of Identity

Athletes must provide proof of identity by providing both their passport and their Northern Marianas Pacific Mini Games 2022 supplied athlete accreditation card to the Competition Secretary at weigh-in.

3.9 Competition Rules and Regulations Continued

3.9.4 Combined Bodyweight Categories

Upon completion of the Verification of Final Entries, if a bodyweight category has only one or two athlete entries, the bodyweight category will be combined with the next category of the same gender. (i.e., Women's 55kg has only two entries; the athletes will move to the Women's 59kg session and maintain their 55kg entry status thus making it a combined category of Women's 55kg & 59kg). For bodyweight categories with three or more athletes entered, the category will proceed as scheduled. If bodyweight categories are combined in one session, the sequence of the weigh-in shall be category-by-category, with the lower category to be weighed before the higher category. The calling order, as noted below, still applies.

3.9.6 Introduction of Athletes and Technical Officials

The competition officially starts with the introduction of athletes; introduction commences at the session start time with athletes being introduced in order of their start number. After the introduction of athletes and prior to the introduction of the Technical Officials, the timing clock starts a countdown of ten minutes.

3.9.7 Minimum Weights

The minimum weights that can be lifted at all IWF Events are: Men = 26kg and Women = 21kg. Full sized (45cm) 2.5kg and 5kg discs will be provided at competition. Athletes will not be permitted to lift from the blocks on the competition platform; however, may have to do so in training or warm-up due to sport equipment considerations.

3.9.8 Calling Order

The following four factors listed in priority must be considered when calling the athletes: 1. The weight of the barbell (lightest weight first); 2. The number of the attempt (lowest number first); 3. The sequence/order of the previous attempt(s) (the athlete who lifted earliest is first); 4. The start number of the athlete (lowest first).

3.9.9 Ten-Minute Break
